Information Collection Request

Title: Applications for Private Aids to Navigation and for Class I Private Aids to Navigation on Artificial Islands and Fixed Structures.

OMB Control Number: 1625-0011.

Summary: Under the provision of 14 USC 81, the Coast Guard is authorized to establish aids to navigation. 14 USC 83 prohibits establishment of aids to navigation without permission of the Coast Guard. 33 CFR 66.01-5 provides a means for private individuals to establish privately maintained aids to navigation. Under 43 USC 1333, the Coast Guard has the authority to promulgate and enforce regulations concerning lights and other warning devices relating to the promotion of safety of life and property on artificial islands, installations, and other devices on the outer continental shelf involved in the exploration, development, removal, or transportation of resources there from. 33 CFR 67.35-1 prescribes the type of aids to navigation that must be installed on artificial islands and fixed structures. Under the provision of 33 U.S.C. 409, the Secretary of Homeland Security is mandated to prescribe rules and regulations for governing the marking of sunken vessels. This authorization was delegated to the Commandant of the Coast Guard under Department of Homeland Security Delegation number 0170 and the marking of sunken vessels are set out in 33 CFR Part 64.11. To change any regulation, 5 U.S.C. 553 requires rulemaking to be published in the Federal Register and that the notice shall include a statement of time, place, and nature of public rule making proceedings. The information collected for the rule can only be obtained from the owners of sunken vessels. The information collection requirements are contained in 33 CFR 66.01-5, and 67.35-5.

Need: The information on these private aid applications (CG-2554 and CG-4143) provides the Coast Guard with vital information about private aids to navigation and is essential for safe marine navigation. These forms are required under 33 CFR 66 & 67. The information is processed to ensure the private aid is in compliance with current Regulations. Additionally, these forms provide the Coast Guard with information which can be distributed to the public to advise of new, or changes to private aids to navigation. In addition, collecting the applicant's contact information is important because it allows the Coast Guard to contact the applicant should there be a discrepancy or mishap involving the permitted private aid to navigation. Certain discrepancies create hazards to navigation and must be responded to and immediately corrected or repaired.

Forms:

- CG-2554, Private Aids to Navigation Application.
- CG-4143, Application for Class I Private Aids to Navigation on Artificial Islands and Fixed Structures.

Respondents: Owners of private aids to navigation.

Frequency: On occasion.

Hour Burden Estimate: The estimated annual burden has decreased from 1,709 hours in 2017 to 712 hours in 2020 due to a decrease in the number of respondents per year.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended.

Dated: April 22, 2021.

Chief, Office of Privacy Management,
